TO: All Yale School of Management Students
FROM: Yale School of Management Deans
SUBJECT: Action Required: Schedule your on-arrival COVID-19 test today

Dear Students,

To participate in the in-person programs at Yale School of Management, you must schedule an on-arrival COVID-19 test to reduce the likelihood that asymptomatic infection will be brought into the community.

Please schedule your on-arrival test between now and the start of the semester through the Yale COVID-19 Screening Program. Testing appointments are currently available now through August 21, Monday-Friday, 8 am - 5 pm. Additional times will be made available later. If you are already on-campus or in the New Haven area, you are encouraged to schedule now.

Students arriving from one of the states included in the State of CT Travel Advisory must quarantine for a total of 14-days upon arrival, regardless of test results.

Individuals with positive test results will be contacted by Yale Health and required to self-isolate. It is also recommended that you sign up for a MyChart account for online access to all of your medical information including lab and radiologic results. We also recommend downloading the app (App Store and Google Play).

While not required, students may obtain subsequent testing on a voluntary basis through the Yale COVID-19 Screening Program, up to once a week, especially if there are concerns about exposure. Testing is important, but prevention of COVID-19 transmission depends on all members of the campus committing to following health and safety guidelines and setting an example for their peers.

If you have questions, please contact the COVID Campus Resource Line, which is staffed by health care professionals, at 203-432-6604.

Thank you for your attention to this very important step to joining us in person on campus.
