Backup and Restore

Summary
Once a server is part of the SOM computing landscape, the SOM IT Infrastructure team will work with you to ensure it is backed up at appropriate intervals to provide restore for disaster recovery purposes.

Features
- Server backup setup
- Configuration of frequency
- Configuration of number of copies retained
- Support for restoring if necessary

Who can use it?
The service is available to the entire SOM community who has stewardship of a server

How much does it cost?
This service is available at no charge to the Yale School of Management community.

How do I get it?
<need info on how someone would request backup/restore services Dell, John>

Related Policy and Procedures
- All users of Yale University computing and networking facilities are expected to read and abide by the Information Technology Appropriate Use Policy. For additional information, please familiarize yourself with the Policies and Procedures related to HiPAA Security.
