Server Consultation

Summary

If you are planning to bring a new server or service into the SOM computing landscape, you will likely need a consultation on setting up a new server. The Infrastructure team will consult with you on your requirements for a server and will advise you on sizing and configuration.

Features

- Consultation on Server sizing and configuration
- Knowledge and advice on server configurations both on premise, and virtual servers which can be in the cloud or also on premise
- Can liaison with outside vendors to build requirements for servers for new SOM services

Who can use it?

The service is available to the entire SOM community

How much does it cost?

This service is available at no charge to the Yale School of Management community.

How do I get it?

<need info on how someone would request a consultation Dell, John>

Related Policy and Procedures

- All users of Yale University computing and networking facilities are expected to read and abide by the Information Technology Appropriate Use Policy. For additional information, please familiarize yourself with the Policies and Procedures related to HIPAA Security.
