Canvas Known Issue: Course videos not automatically linking in Warpwire

Summary

PHD courses (MGMT courses) are not posted within SOM. They are posted to the Graduate School of Arts & Science. This is a University and Banner feed.

Information

The PHD class video recordings that happen at SOM will be placed in Warpwire under a generic folder labeled 999.

The Warpwire LTI tool needs to be added to cross-listed courses that are located in other schools. Visit the Adding Warpwire LTI Confluence page for instructions.
