Solstice: Ending Your Session

Summary

Solstice is a wireless display and screen share software. Use this article for information on how to end your Solstice session.

Information

When you are through screen sharing, it is important to close out your session with Solstice so your active session doesn’t persist into the next session of use.

Step-by-step guide

To end your Solstice session:

1. From the Solstice application installed on your device, select Stop Sharing > Disconnect
2. For assistance please call the SOM Help Desk at 203-432-7777
