GradLeaders Calendar Sync

Students GradLeaders (formerly GTS) calendar should automatically sync to their Outlook calendar. If it does not, there is typically a permissions issue.

If a student notices that they are not seeing appointments in Outlook from GradLeaders, this issue can only be resolved with a ticket escalated to Systems team as this is a permissions issue.

You can place a ticket with SOM IT at somit@yale.edu to report this issue. Include your account information in this eMail.
