FactSet Error on Insert Formula

Within FactSet, an error occurs on "insert formula". On the "insert" tab of the FactSet toolbar, you get a message "the factset automation add in has been disabled. Re-enable the add in and relaunch Excel"

Step-by-step guide

1. Close out of all Office programs
3. Select Run Non-Admin
4. Check all boxes under Connect and Office
5. Run Selected Items
6. Relaunch Excel
