Palisade Decision Tools Suite Error after Windows 10 Anniversary Update

This pertains to any student running Palisade Decision Tools Suite version 7 with Office 2016 and the Windows Anniversary update has been run on the student's machine. Symptoms: Applications within Palisade do not respond or crash

Information

Symptoms: Applications within Palisade do not respond or crash

EMBA Class of 2018 Students should use VDI per Donald Lee as announced in his class on Saturday and through Canvas.

Information posted on Canvas:

Under Announcements (3rd tab down from the left navigation)

The top announcement:

Client Services has sent an email out to the remaining students advising of the issue and that the VDI is there for their use while we determine an appropriate resolution.
