ApplicationXtender Web Client - Installation

Summary

This is a legacy document management software package. No new departments should be added. For authorized departments, find the installation instructions for ApplicationXtender Web Client below:

Functional Support issues can be directed to SIS Support:

- http://www.yale.edu/sfas/support/
- sfas.system.services@yale.edu

Technical Support should first be performed through the tiered structure. If tier 2 is unable to find a solution, technical escalations can go to:

- http://www.yale.edu/sfas/support/
- sfas.system.services@yale.edu

Step-by-step guide

If the user intends to import documents using a locally attached scanner, ensure that the full suite of scanning utilities for the model is installed on the user's computer. Software Required: Windows operating system and Internet Explorer browser.

*These instructions can be used on and after 10/05/2016.

1. Exit Internet Explorer.
2. Verify that .NET Framework 4.0 or higher is installed. You can do so from Control Panel > All Control Panel Items > Programs and Features or Add/Remove Windows Features. Windows 8, 8.1, and 10 comes with .NET Framework 4.x
3. Copy file "ApplicationXtender Web Access Client Components 7.0.msi" from \polaris\Software\ApplicationXtender_Banner\AX70_collab\AppX 7.X Install to the user's computer.
4. On the user's computer, double-click "ApplicationXtender Web Access Client Components 7.0.msi"
5. Click Next >
6. Accept the EULA, then click Next>

SOFTWARE LICENSE AND MAINTENANCE AGREEMENT
