4. In Office 365 Admin Portal > Users > Active Users
5. Edit = Product licenses >Office 365 Education Plus for students .
6. verify that License is active as well as Exchange Online (Plan 1)

---

**O365: Unable to log into Office 365 - License not associated with account**

**Symptoms**

User is unable to log into their Outlook 365 account in both their Outlook client and via [https://outlook.office365.com](https://outlook.office365.com) OWA. Outlook will just continually prompt for credentials. OWA will give one of several error messages indicating either, a license is not associated with the account, the mailbox is disabled, the mailbox isn't available or bad request. Bad user name or password.

**Cause:**

The users Office 365 account is missing an association to the Office365 ProPlus and/or Exchange Online (Plan1) license in the O365 Admin Console.

**Solution:**

Escalate ticket to Systems to have license added to the account.
