How to record videos using breakout room camera

Summary
Students are oftentimes required to create group video presentations. The breakout rooms are equipped with cameras and software to accommodate this as well as video conferencing.

How to use
1. Login to Room PC.
2. Click the Webcam icon from the task bar.
   1. You can also click the start button, type Logitech Webcam Software and launch program.
3. Quick Capture.
4. Ensure selector on bottom left is set to Video.
5. Click green Record button with camera icon. Will begin a 3 second countdown.
6. When countdown is finished, the record button will turn red to show it is recording.
7. When finished, press the Record button again.
8. Videos will be saved to the Recorded Videos folder on the desktop.
