EMS Mobile App Configuration

Step-by-step guide

1. Install EMS App from iTunes or Android Play Store
   1. Or visit https://yalesom.emscloudservice.com and click the prompt to install mobile app at top of screen.
2. Enter https://yalesom.emscloudservice.com/platform as URL
   1. Click connect
3. Login via CAS
4. Allow EMS to use location service

If using EMS Mobile from off campus, DO NOT attempt to click the "remember me for 1 day" check box in duo, the app will attempt to login you in without DUO and fail
