Connecting Windows 7 to Yale Secure wifi

Use this article if you need to connect a Windows 7 machine to the Yale Secure wifi

Step-by-step guide

How to Connect to the YaleSecure Wireless Network

1. In the taskbar near the time, click the wireless icon.

2. You will see a list of available wireless networks. Click "YaleSecure" and be sure that "Connect automatically" is checked, then click "Connect."

3. **NOTE**: Depending on your computer configuration, you may or may not have to perform this step. If you are not prompted for Network Authentication, then move to step 4.

   In the Windows Security window, enter `yale\YourYaleNetID` (example: `yale\abc12`) and your Yale NetID password. Click "OK."
4. In the Windows Security Alert window, click "Connect."
