Canvas: Create Page and Add it to Course Navigation

Summary

Use this article to learn about creating a page in Canvas and linking the new page to Course Navigation.

Step-by-step guide

To create a page in Canvas and link it to Course Navigation:

1. Login to Canvas https://canvas.yale.edu/
2. Navigate to Pages in Course Navigation (left navigation bar)
3. Click +Page near the top right of the screen:

4. Place content into your page and click Save and Publish towards the bottom of the browser
5. Copy the page URL from the browser. Keep this on your clipboard:

6. Click Settings in the left navigation bar
7. Click Apps located in the top tab
8. In the Filter by name box, type Redirect Tool:

9. Hover your mouse over the Redirect Tool that appears and click it
10. Click +Add App
11. In this popup, provide the information for your page:
   a. Name - Type a name for the page. This name will be listed on the left navigation bar
   b. URL Redirect – This will be on your clipboard from step 4. Paste the URL of the page here
   c. Uncheck Force open in a new tab (For external Links Only)
11. Make sure Show in Course Navigation is checked

![Add App Form]

12. Click Add App
13. Refresh the page and you will see the appropriate page on the left navigation bar within your course
