Lecture Capture

Summary
The SOM Information Technology Services department provides a Desktops and Laptops Service to the SOM community. The Media services offerings cover the ability to capture a lecture using our standard static shot for classrooms or if you have multiple speakers and complex mixed media, we can arrange a follow-shot if needed. Request are also approved based on availability of both staff and equipment resources.

*If you are requesting a lecture capture for a course that request must go through Faculty Support in order to be processed. Email: facultysupport@yale.edu

<table>
<thead>
<tr>
<th>Static Shot Recording (Standard)</th>
<th>The SOM standard for recording lectures, allows for an appropriate wide angle to cover both the speaker and the presentation monitored from our remote media room.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Follow-Shot Recording</td>
<td>Sometimes a special SOM lecture requires a more complex recording format when there are multiple speakers, mixed media and a large amount of movement. This must be requested 72 hours in advance in order to schedule an onsite dedicated Media Services specialist</td>
</tr>
