Start CrashPlan Backup - Mac

If CrashPlan hasn't been started on your computer, you can begin backing up by:

1. Open Finder
2. Navigate to Apps folder
3. Launch CrashPlan
4. Username: Yale NetID. You do not need "Yale" for this.
5. Password: Your Yale password.
6. Server address: backup.yale.edu
7. Sign in.
8. If "Looks like this device has never backed up" appears, select either Add New Device or Replace Existing
   a. Replace existing "Adopts" the previous backup and gives you the option to transfer files.
9. CrashPlan main screen will appear with Synchronization status.
