The Mobile Device service has a setup and configuration support offering, to provide assistance in the setup and configuration of your mobile device or tablet. Use this article to find information on the Apple iWatch Cellular Feature.

Step-by-step guide

Apple iWatch 3 Cellular Feature explained by Carrier:

1. AT&T: Yale CTS has to submit an issue to AT&T to load it to your mobile # account as a monthly recurring charge.
2. Verizon: The Apple Watch is currently unavailable to government due to issues of Number Share not working on non-standard plans. A fix is expected before the end of the year.
