Zoom Support

Summary

Use this article for information on where to get support while using Zoom. Yale audio video conferencing is an on-demand, audio and video conference service that is available 24/7. Access for both the host and participants is available via a local Yale number, as well as via the Zoom application.

Step-by-step guide

For support using Zoom:

1. Navigate to the Yale Audio and Video Conferencing - Zoom ITS page
2. Locate the Where can I get help? and FAQs and other resources sections to find training session information and help articles
