EMS Mobile App Configuration

Step-by-step guide

1. Install EMS App from iTunes or Android Play Store
   a. Or visit https://yalesom.emscloudservice.com and click the prompt to install mobile app at top of screen.
2. Enter https://yalesom.emscloudservice.com/platform as URL
   a. Click connect
3. Login via CAS
4. Allow EMS to use location service

If using EMS Mobile from off campus, **DO NOT** attempt to click the "remember me for 1 day" check box in duo, the app will attempt to login you in without DUO and fail.
