Video Calling in Slack

There are two ways to initiate a video call in Slack.

Step-by-step guide

1. While in a channel, direct message, or group direct message, click the details button.

2. Click Call

3. If prompted, allow the Zoom integration.

4. The Zoom information will post to the channel or DM for members to join.

Alternate (Slack Call)

1. While in a channel, direct message, or group direct message, post a message to the channel: /call

For more on the Zoom Slack integration, visit: https://support.zoom.us/hc/en-us/articles/205153325-Using-Slack-with-Zoom
2. This will invite all channel or DM participants (up to 15 people) to a Slack call.

Slack calling also allows screen sharing and annotation.
