Connecting Windows 10 to YaleSecure Wi-Fi

Use this article if you need to connect a Windows 10 machine to the YaleSecure wifi

Step-by-step guide

How to Connect to YaleSecure Wireless Network in Windows 10

1. In the taskbar, near the time, click the wireless icon.

2. You'll see a list of available networks. Click YaleSecure.

3. Be sure that Connect automatically is checked, and then click Connect.
4. Enter **username: yale\YourYaleNetID** (Example: yale\abc12) and your **Yale NetID password**, and then click **OK**.
5. A notification will pop-up prompting you to connect. Click **Connect**.

6. If the connection is successful, **Connected** will be listed below **YaleSecure**.
