Working at Yale SOM

Current Status

All SOM staff are authorized to be on campus now. Yale ID card key building access has been restored to all SOM buildings for our staff and faculty, as of June 1, 2021. If you are not routinely on campus until August you may still have a need for a one time visit.

One-time visits to campus

SOM employees may need to make short, one-time visits to campus to retrieve belongings from workstations or offices, or perform limited duties on campus.

1. Complete the COVID-19: Mandatory Training - and certify completion via TMS at the link provided at the end of the video. You’ll need VPN for the TMS certification. You need only do this one time after February 2021 (the updated training), not before each visit.

2. The following instructions will apply to each of your visits:
   a. Stay Off Campus or Leave Campus if Ill: Yale requires individuals experiencing symptoms to stay remote and follow the advice of their health care provider. Contact your primary care provider or the Campus COVID Resource Line - 203-432-6604 (toll-free at 866-924-9253); https://yalehealth.yale.edu/.
   b. Other Daily Requirements: Health and safety precautions individuals must follow are based on your vaccination status, and may evolve. Check the COVID-19 Vaccination Program page for current guidelines.
   c. Building Entry: Please enter the building alone – spouses, partners, friends, etc. are not permitted inside the building.
   d. Personal Hygiene: Frequently wash hands for 20 seconds and use sanitizing stations.
   e. Follow Signage: Follow directional signage throughout the building.
   f. Leave no trace: If you visit your desk / office and have trash, please place your bin outside your office doors or suite doors. Custodians will not be entering offices and suites routinely yet. If you require additional cleanup, please submit an office cleaning request to SOMfacilities@yale.edu for service.

Please direct any questions to SOMfacilities@yale.edu.
